Business/Employment			
	Average Weekly Earnings (including overtime), Alberta – Feb 2020	Dataset - This Alberta Official Statistic describes the average weekly earnings of all payroll employees in Alberta. Earnings include overtime and are seasonally adjusted (current dollars).	Links to: <ul style="list-style-type: none"> • Survey of Employment, Payrolls and Hours
	Alberta Activity Index Data Table (2020)	Dataset - The Alberta Activity Index (AAX) closely tracks economic activity. Developed by Alberta Treasury Board and Finance, it is a weighted average of nine monthly indicators (employment, average weekly earnings, retail trade, wholesale trade, manufacturing, new truck sales, housing starts, rigs drilling and oil production). This data file is updated monthly.	Links to: <ul style="list-style-type: none"> • Alberta spatial price survey: a place-to-place price comparison survey
	Alberta Spatial Price Survey (2019)	Dataset - The Alberta Spatial Price Survey measures price differences between selected Alberta communities for a basket of goods and services at a specific point in time.	
	Employment by Occupation, detailed age groups and sex, Canada and provinces, country of birth (2006 to 2017) (2018)	(Dataset – (StatCan Product)) This information product has been customized to present Employment by Occupation, detailed age groups and sex, Canada and provinces, country of birth (2006 to 2017)	
	Employer Records (2020)	Dataset - The data is based information reported to Workers' Compensation Board by March 31 for employers who are required to have WCB accounts. The dataset contain employer-specific information on occupational fatality, lost-time and disabling injury claims and presented as counts and rates. This information allows for the tracking of workplace health and safety performance indicators over time.	
	Income Support Caseload, Alberta (2020)	Dataset - This Alberta Official Statistic describes the monthly Income Support caseload in Alberta, including two client groups: those expected to work and those who have barriers to full employment.	Links to: <ul style="list-style-type: none"> • Income and Employment Supports Policy Manual

Sampling of Current Assets on Alberta's Open Government Portal – February 2020

CATEGORY	DATA	DESCRIPTION	RELATED INFO
		Income Support provides financial benefits to individuals and families who do not have the resources to meet their basic needs, like food, clothing and shelter. The caseload is defined as the number of households categorized as Expected to Work (ETW) or Barriers to Full Employment (BFE) during a specific reporting period. Most commonly, this is reported as the average volume for a specific period of time (e.g. annually). The composition of the caseload is made up of single individuals, lone-parent families, couples with children and couples without children. In April 2018, a breakdown of the number of caseloads by each Community and Social Services Regions was added.	
	Labour Force Survey Estimates, Population, Labour Force, Employment, Employees, Average Hourly and Weekly Wage Rate by NOCS (2, 3 and 4 digit) for Alberta (1997-2018)	Dataset - (StatCan Product) This information product has been customized to present Labour Force Estimates by Population, Labour Force, Employment, Employees, Average Hourly and Weekly Wage Rates by Occupation (NOCS 2, 3 and 4 digits) for Alberta for the years 1997 to 2018.	
Children			
	Child Care Information (2020)	Dataset - This data set contains information on child care programs in Alberta. Data available includes the following: - Type of Program, Program Name/Address/Postal Code, Capacity, Accreditation Status, Inspection Date, Inspection Reason, Non-Compliance, Regulation – Schedule – Type, Enforcement Action, and Remedy Date. 		based on the school year they entered grade 10, the number of students in that cohort that participated in each of the diploma exams, and the participation rate (the ratio of two) for each of the past five school years.	
	Education Annual Report Update	Publication - This annual update contains performance measure results not available for publication at the time of Alberta Education's annual report.	
	Full Load Equivalent (FLE) Enrolment within the Alberta Post Secondary Education System (2019)	Dataset - This statistic describes the Full Load Equivalent (FLE) by each institution and academic year within Alberta's Publicly Funded Post-Secondary Education System. FLE is a measure used so that we can make comparable calculations across different institutions, across different programs. The FLE is measured by taking the load of the learner enrolled (instructional hours + practicum hours) and dividing by the full load of that program. This results in a comparable metric to be able to use across the system. The FLE calculation is consistent for every institution and program. The data tables presented are related to enrolments in approved programs at publicly funded post-secondary institutions within Alberta.	
	Guidelines for recognizing diversity and promoting respect	Publication - Provides criteria to review all references, including visuals, for promoting respect and understanding for all members of society as listed in the Canadian Human Rights Act and the Canadian Charter of Rights and Freedoms. The guidelines may be used when developing a resource for students and teachers or selecting resources for teaching and learning.	
	Headcount Enrolment within the Alberta Post-Secondary Education System (2019)	Dataset - This statistic describes Headcounts (unique learners) by institution and academic year within Alberta's Publicly Funded Post-Secondary Education System. Headcounts represent the number of students enrolled, and are unique to each level reported, therefore

Justice/Crime			
	Crime Rates by Municipality (2016)	Dataset - Crimes as reflected in the Uniform Crime Reporting Survey, based on substantiated offenses reported to a police-service detachment in a particular jurisdiction (not necessarily occurring in the jurisdiction).	
	Crime Severity Index, Canada and Provinces (2015)	Dataset - This Alberta Official Statistic describes the Crime Severity Index for Canada and Provinces, 1998 to 2014. Crime Severity Index is a measure of the seriousness of police-reported crime. It covers all Criminal Code violations including traffic, as well as drug violations and violations of all Federal Statutes. Each criminal offence is weighted based on sentences given. Each criminal offence is weighted based on sentences given. The Canadian Centre for Justice Statistics (CCJS), in co-operation with the policing community, collects police-reported crime statistics through the Uniform Crime Reporting (UCR) Survey. The UCR Survey was designed to measure the incidence of crime in Canadian society and its characteristics. UCR data reflect reported crime that has been substantiated by police. Information collected by the survey includes the number of criminal incidents, the clearance status of those incidents and persons-charged information. The UCR Survey produces a continuous historical record of crime and traffic statistics reported by every police agency in Canada since 1962. Data from the UCR Survey provide key information for crime analysis, resource planning and program development for the policing community. Municipal and provincial governments use the data to aid decisions about the distribution of police resources, definitions of provincial standards and for comparisons with other departments and

		provinces.	
	Responses to public fatality inquiry recommendations (2020)	Dataset - This dataset provides information on judicial recommendations arising from public fatality inquiries to the Minister of Justice and Solicitor General, and the actions or inactions of responsible entities.	
	Violent and Household Victimization Rates, Canada and Provinces (2016)	Dataset - This Alberta Official Statistic describes the violent and household victimization rates for Canada and provinces for the year 2004, 2009 and 2014. The rate is based on incidence per 1,000 population in each province. The Canadian Centre for Justice Statistics (CCJS) utilizes the results of the General Social Survey (GSS) to measure self-reported victimization. The GSS gathers information on social trends over time and measures the wellbeing of Canadians. The victimization portion of the survey is designed to look at the nature of criminal victimization in Canada. This Alberta Official Statistic includes violent crime (sexual assault, robbery, physical assault) and household crime (breaking and entering, theft of motor vehicles or parts, theft of household property, vandalism).	
Nonprofit			
	Alberta Charities Tax Filings (2012 to 2018)	Dataset - Presents data on Alberta charities that are registered under the Income Tax Act and are eligible to issue official donation receipts. The data includes details on a charity's financial information and activities. This information is compiled from the annual return each charity must fill out and submit to the Canada Revenue Agency. The dataset reflects information as provided by the organizations.
